American Chemical Service, Inc.
Griffith, Indiana

Dear Ms. Bianchin:

In response to your telephone request today, I am enclosing two additional copies each of the Upper Aquifer SOW/SOPs and Lower Aquifer SOW/SOPs.

In addition, we are requesting your approval to substitute Ohmicron for the vendor of field PCB testing rather than Ensys. To facilitate your review of this request, I am sending five copies of the *Ohmicron Method Manuals* to you. We are currently revising the text on page 5 of the Work Plan. I will fax a copy of the revised text to you and the "cc" list on December 28, 1995.

Thank you for your consideration of this request for a change. Please do not hesitate to call me if you have any questions.

Sincerely yours,

MONTGOMERY WATSON
